treated matters kindly, with the result that Australasia and Japan, the two ations most favored to come through to the final round, were placed on op-mosite sides of the draw, thus making it fairly certain that they would face each other in the final round for the noner of playing the United States in the challenge round at Forest Hills mext September.

The complete draw follows:

round (ien half)—Canada in Relgium in Australiaia, Hawaii che Siavalitia di round (first vound a bye)—Don s, where of France-Canada maich round (lower half)—Spain vs. Phil. Buinania va India, Japan vs.

Second round (first round a bye) - British files vs. winner of Japan Italy match.

A brief study of this draw is sufficient to show that Australasia should harch straight through in the upper section without encountering any serious obstacles on her way to the final bracket, probably facing France in the aemi-final.

British May Defeat Japan

British May Defeat Japan
There is a bit more doubt as to the course of the competing nations in the lower half. We do not know, for a certainty, that Ichiya Kumagae will be able to represent Japan, and his loss would be practically a fatal blow to that nation's hopes of entering the final round in the event that the British Isles can summon its best players, headed by Colonel Algernon R. F. Kingscote, to its standards.

Zenzo Shimidzu, it is true, will play for Japan, but without Kumagae to play in both singles and doubles, the

for Japan, but without Kumagae to play in both singles and doubles, the Empire of the Far East would probably have to place its reliance on Selichire Kashio, as the second man. Kashio, who has been a resident of this city for several years and is well known as a tournament player, is scarcely up to international standards.

Colonel Kingscote would be a powerful aid to almost any Davis Cup team
and if England can prevail upon him to
lead her invading forces then she wil
findeed prove a serious menace to
Japan, which should dispose of Italy
and the first round.

Presuming, however, that Kumagae will play, I look for Japan to meet Australasia in the final round, and for Australasia, with Brookes, Patterson, Anderson and O'Hara Wood, to win this match and stand forth as challenger of the United States.

Final Round at Newport

The first and second round matches probably will be finished up by the end of July, for the semi-final must be played during the week of August 7 and the final during the week of August 14, the latter event on the courts of the Newport Casino. A majority of these preliminary matches will be played in this country.

Yale

NEW HAVEN, Conn., March 17.—

Five world's records were amashed in Carnegie Pool to-night by the championship Yale swimming team. N. T. Guernsey, of New York, broke his own record for the 75-foot plunge when he won the event in thirty-five seconds flat. A Yale relay team made up of eighteen swimmers established new world's marks for the 400, 500 and 609 yard and one mile relay races.

Yale won the dual meet with Columbia by a score of 40 to 18, but the New Yorkers won the water polo game by a score of 24 to 16.

The old world's record for the fafot plunge was thirty-six seconds, made by Guernsey a week ago. He slas holds the record for the 50-foot plunge. The relay records were made in an exhibition contest with the Yale freshmen. A. A. U. officials were the time-keepers. hTe time for the 400-yard relay was 3:47 3-5. The former record was one-fifth of a second slower and was set by the Illinois A. C. tram at San Francisco on April 28, 1920.

In the 500-yard event the time was 4:46 2-5. The former record was 4:47 2-5, also held by the Illinois A. C. made in San Francisco in 1920. The new time for the 600 yards was 5:43 3-5, cutting four seconds off the mark established by the same Yale swimmers on March 11.

The time for the mile was 17 minutes 40 4-5 seconds, against the old record of 18:19 4-5 made by the New York A. G. in New York on April 8, 1915.
